EDUCATION

CERTIFICATE IN DEVELOPMENT

Career Foundry

May 2020- Present

Intensive project-based training specializing in both front-end and back-end development. Received training and guidance from a seasoned professional and created five apps from beginning to end. Projects included:

- Pokedex: a small web application with HTML, CSS, and Javascript that loads data from an external API and enables the viewing of data points in detail.
- Meetup: a serverless, progressive web application with React using a test-driven development technique.
- MyFlix: a movies application consisting of a REST API, built using JavaScript, Node.js, Express, and MongoDB for the server-side and JSX, React, Redux, Parcel and Heroku for the front-end.
- Quiz App: a quiz app built using Angular, and Angular Material
- To-do List: a to-do app built using Vue.js
